The case in which the United States Supreme Court rendered a decision on Monday, that is of special interest to drummers, arose out of the following facts: One Sabine Robbins was engaged in Memphis, Tennessee, soliciting orders for stationery for a stationery firm, and in exhibiting his samples for the purpose of effecting sales. The State law applicable to it was one subjecting drummers and all persons not having a regular licensed house of business in the district, offering or selling goods by sample, to a tax of \$10 a week or a duty of \$5 a month. Robbins, who was unlicensed, was arrested, tried, convicted and fined. On appeal the judgment was affirmed. The case was taken to the Supreme Court on a writ of error, upon the ground that the law imposing the tax is repugnant to that clause of the Constitution of the United States which declares that Congress shall have power to regulate commerce among the several States. The principal question involved was as to the constitutionality of the Act which imposed the tax. In a long and carefully prepared opinion by Justice Bradley, the Court holds, first, that the Constitution gives to Congress the power to regulate commerce among the States, and that that power is necessarily exclusive, whether the subjects of it are national in their character or admit only a uniform system, plan, or regulation; second, where the power of Congress to regulate is exclusive, its failure to act indicates its will that subjects shall be left free from any restrictions, impositions, and any regulations by a State except in matters of local concern only is repugnant to such freedom; third, the only way in which commerce between the States can be legitimately affected by State laws is when, by virtue of its police power and its jurisdiction over persons and property within its limits, a State provides for the security of life, limb, health, comfort and property when it does these things which may incidentally affect commerce, but in making such internal regulations a State cannot impose taxes upon persons passing through or coming in merely for a temporary purpose, nor upon property imported, and not yet become part of common mass, and no discrimination can be made by any such regulation adversely to persons or property of other States, and no regulation can be made directly affecting interstate commerce.

The Chief Justice and Justices Field and Gray dissent, on the ground that the law in question is applicable to drummers coming into Shelby county district from other parts of Tennessee, as well as those from other States, and to relieve the latter from the taxation imposed on the former would be discrimination against the citizens of that State.

President Cleveland was certainly treated to an indignity the other day such as was never before deliberately shown a Chief Magistrate of the nation. A serenade was devised for him on the occasion of his appointment of an imported negro to the lucrative position of Register of Deeds of the District of Columbia. The band played "There's a New Coon in Town" in front of the White House for half an hour. In fact, the musicians only stopped from sheer exhaustion. The demonstration, it is said, was participated in by many of the 50,000 negroes in the District of Columbia, among whom are hundreds just as well fitted for the appointment as Mr. Trotter. Mr. Cleveland is bound to be first in all things but one—the first Democratic President in 24 years, first in Civil Service Reform, first in vetoes, first to be charivariated, but not first in the hearts of his countrymen.

—The suspension of the Maritime Bank of New Brunswick, at St. John's, has been followed by the failure of some of the largest lumber firms in the province. A panic prevails in business circles.

TO-DAY'S NEWS.

Arrival in New York of Distinguished Japanese.

A TRIBUTE TO BEECHER

Anarchist Neebe to Attend His Wife's Funeral.

THE BULGARIANS SCORED

A Philadelphia Swindler Dupes the Bostonians.

[PRESS DISPATCHES TO THE GAZETTE]

A Railroad Combination Scheme

New York, March 9. The Evening Post in its financial article says the attention of the street and general public has been concentrated upon the progress of a scheme for the amalgamation of half a dozen great railroad properties, under the control of the Richmond Terminal syndicate. There was so much skepticism about its success, that even when it was openly and positively stated by members of the syndicate that they had acquired control of the Baltimore and Ohio, speculators and others apparently waited for further developments to show the extent of the whole scheme before taking much interest in the market. The prevailing belief is that a settlement of the telegraph war will be one of the results of the Jersey Central, Reading, Baltimore & Ohio and Richmond Terminal combination. It is acknowledged that the Baltimore & Ohio would like to part with its telegraph property, which, in the present state of war, is unprofitable.

Swindled Bostonians.

Boston, March 9. Wm. C. Hickman, originally of Philadelphia, but lately of Boston, has joined the American colony in Canada, after having, it is alleged, swindled a number of Boston capitalists out of between \$30,000 and \$40,000. Hickman claimed to have a formula for the manufacturing of an article he called sugarine, out of common starch. The sugarine was to take the place of ordinary sugar, to which it was equal in all respects. According to Hickman's story, sugarine could be made for 1 1/2 cents a pound and sold readily for 5 1/2 cents. Several capitalists became interested and furnished considerable sums of money which, it is said, Hickman perverted to his own use. When he found that he could no longer blindfold his dupes, he left this city for Montreal, where he is now. Hickman is said to be very well connected in Philadelphia.

Distinguished Japanese.

New York, March 9. General Count K. Kuroda, D. Suzuki, M. Komaki, Captain K. Ijain, of the Japanese army, and M. Mayeda, B. Ichikawa, Mr. Tereda and Lieut. M. Sato, of the Japanese navy, arrived from Europe yesterday. Count Kuroda is one of the high officials of the Japanese Government, his civil position being that of Legal Counsellor of the Ministry. He is Lieutenant-General of the Japanese army, a position corresponding to that of Major-General in the United States army. The other members of the party are his aides, or young men whose education is being perfected by travel. They have been in France, England and Germany. They will visit the principal cities of this country, and return to Japan by way of San Francisco.

Beecher's Funeral.

New York, March 9. The following details of arrangements for the funeral were given to the press to-night: The service from the beginning will be under the direction of the Rev. Chas. H. Hall of the Holy Trinity Church, who will officiate at the house when the first services take place on Thursday morning at 9:30 o'clock. At 10:30 the remains will be escorted to the church by the Thirtieth Regiment, of which Mr. Beecher was Chaplain, and Company C will act as a guard of honor until the remains are finally transferred to Greenwood Cemetery, where they will be placed in a receiving vault to await final disposition, which will be decided later.

Neebe to Attend his Wife's Funeral.

CHICAGO, March 9. Oscar Neebe, the Anarchist, will be permitted to attend the funeral of his wife who died from apoplexy Monday. Sheriff Matson wrote a letter to one of Neebe's friends, making such request, in which he says: "In reply to your letter, I beg to say that I can see no objection to Neebe attending the funeral of his deceased wife, and I will send an officer with him for that purpose, if his friends will notify me where the funeral will take place. It seems to me that under the circumstances, every one ought to sympathize with him in his bereavement; I most certainly do."

Killed by Giant Powder.

HELENA, Mont., March 9. A Fort Shaw courier brought the news yesterday of an explosion of giant powder at a camp of the Montana contract railroad graders near Great Falls, by which the foreman, George Lawrence, and a blaster, Clay Archer, were instantly killed and Thomas Moore and another employee, seriously injured.

Will Probably Be Released.

DETROIT, March 9. Ten Latter Day Saints from Idaho, who have been in the House of Cor-

rection here for over six months, are expecting to be released to-day on writs of habeas corpus. Each was sentenced for nine months, receiving what is known as cumulative sentences and it is now claimed that such sentence is unconstitutional, and that the prisoners will probably be released.

Trotter Receives His Commission

WASHINGTON, March 4. The President to-day signed the commission of Recorder of Deeds, James M. Trotter.

FOREIGN DISPATCHES

A Growl From the Russian Bear.

LONDON, March 9. The Journal de St. Petersburg accuses the "Bulgarian dictators," as it calls the Regents, of torturing the prisoners who took part in the recent revolution and committing atrocities under the name of summary executions. Their revolting brutality, the Journal declares, will enlighten public opinion as to the real worth of the pretended defenders of the country. We hope that these excesses may induce the conviction that there is urgency for a termination of the martyrdom of the unfortunate nation which Russian devotion called into existence, and which is too great for European toleration to permit to be surrendered to anarchy. The limits of patience have been transgressed.

Advised to Retire.

VIENNA, March 9. The Fremdenblatt advises the Bulgarian Regents to retire, and allow the country to secure a peaceful arrangement with Russia. Other semi-official papers give similar advice. It is believed they are inspired by a Government advocate to such a course. It is reported that Emperor Francis Joseph, in a private conversation, denied that Russia has formally withdrawn from the triple alliance.

Greater Power Wanted.

SOFIA, March 9. The Government is about to summon the great Sobranje, when the National party will demand of the Sobranje that greater power be given the Regents. It is reported the Roumanian authorities have arrested at Astrou, two superior officers of Russian nationality concerned in the recent uprising in Bulgaria.

A High Tribute to Beecher.

LONDON, March 9. Rev. Dr. Joseph Parker, pastor of the City Temple, whose guest Rev. Henry Ward Beecher was during his recent visit to London, publishes a tribute to Beecher's memory. He says he does not hesitate to pronounce Beecher the greatest preacher that ever lived.

Announcement.

James P. Hixson, representing the merchant tailoring establishment of Gordon Bros., 329 Kearney street, San Francisco, has arrived in Reno and will remain at the Palace Hotel a few days, and have on exhibition a full line of sample goods for gentlemen's wear, suitable for the present and coming season. Those wishing first-class custom-made clothing will do well to give him a call. He is the only scientific, practical cutter who has taken diplomas in the principal cities of the East for correct measuring, skillful labor, a perfect fit, and who is soliciting orders. There are a great many adventurers traveling who are not tailors and who do not represent a responsible house, who cannot take a correct measure, subjecting the people to great annoyances and loss. Hoping that the public will encourage a scientific man to do their work, M. Hixson is recommended. *8d3

Vitiated Blood

Scrofulous, Inherited and Contagious Humors Cured by Cuticura.
THROUGH the medium of one of your books received through Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your CUTICURA Remedies, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in our country. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA Remedies a trial.

SCROFULOUS ULCERS.
James E. Richardson, Custom House, New Orleans, on oath, says: "In 1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed, was in constant pain and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the CUTICURA REMEDIES, used them and was positively cured. I am sworn to before U. S. Com. J. D. Crawford."

ONE OF THE WORST CASES.
We have been selling your CUTICURA Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofulous I ever saw was cured by the use of five bottles CUTICURA RESOLV, CUTICURA and CUTICURA SOAP. The soap takes the "cure" here as a medicinal soap.

"Coming Thro' the Rye."

Burn's famous song, "Coming Thro' the Rye," did not have reference to a rye-field, but to the river Rye, Ayrshire, Scotland, which could be forded. In wading, however, the lassies had to hold up their petticoats, and it was a favorite pastime for Robbie Burns and companions to lay in wait for lassies "coming through the rye." When they had got to mid-stream, the laddies would wade out and snatch a kiss from the lassies, who were unable to resist without dropping their skirts in the water.

HOW THE LAW WILL AFFECT WESTERN NEVADA.

An Interview With D. A. Bender, General Passenger and Freight Agent of the Virginia & Truckee and Carson & Colorado Railroad Companies.

A GAZETTE reporter yesterday interviewed D. A. Bender, General Freight and Passenger Agent of the Virginia & Truckee and Carson & Colorado Railroad Companies, concerning the effects of the Interstate Commerce law, which will be in force on the 5th of April next, as follows:

Reporter—Do you believe that the expectations of the people of Nevada, generally, as to the good results to come from the operation of the Interstate Commerce law, will be realized; or, in other words, will the State be substantially benefited thereby?

Mr. Bender—No; I hardly think our people, particularly those who have direct dealings with the railroad—that is, the shippers and consignees, will be as well satisfied as they are now with existing rates and methods. I don't know as it will make as much difference with the towns along the line of the overland railroad, as it will with points on the line of our local connecting roads and adjacent districts, which, on account of greater distance and the additional expense of team haul to and from the railroad, have enjoyed through special rates to and from Sacramento and San Francisco, etc., and which they will cease to have after April 5th. In this case the effect of the law will be injurious to local interests.

To illustrate: We have now in force with the Central Pacific, special rates on ore, base metals, grain, salt, soda, marble, wool, hides, potatoes, etc., from points on our road to Sacramento and San Francisco; also, such rates on certain articles from those points to points on our roads—inter-state traffic. These rates, per notice that I have already received from the General Freight Agent of the Southern Pacific Company, will be withdrawn on the date named, so that hereafter the articles I have mentioned will be billed at the respective local rates of the several roads, the sum of which makes higher rates than through rates now in force. Take, for instance, potatoes, of which we hauled during the year 1916 over the Virginia & Truckee, 137 car-loads that were loaded at Washoe, Dayton, Carson, Washoe, etc., and billed to Sacramento and San Francisco. A general rate of 30 cents per 100 pounds is in force on this article from all the shipping points I have named, as it is from Reno and other points on the Central Pacific, the object being, you see, to give a rancher at Dayton the same transportation rate to market as the rancher at Lovelock or Reno has an even chance all around. Now, it is plain that if the Central Pacific charges and collects a rate of 30 cents per 100 pounds on spuds from Reno to San Francisco, it cannot collect for its proportion 30 cents on shipments from Dayton to San Francisco, as that would leave nothing for the Virginia & Truckee and the Carson & Colorado roads. As I understand Section 2 of the law, the charges must be the same for like and contemporaneous service. This must be the view of Southern Pacific officials. Otherwise, the order cancelling the existing special rates would not have been sent me. I have always been a zealous advocate of low rates on the productions of our State to a market outside of the State, whenever such rates created traffic, that is business generally. Therefore, I am sorry to see any law in force which will interfere therewith. It certainly retards the development of our industries generally.

What I have said about potatoes applies with equal force to ore and base metal, the through rates on which must be increased when the Central Pacific applies local tariff rates on all shipments they receive at Reno. This action, however, will not injure your reduction works here.

Reporter—Do you think the law will bring a reduction in overland freight charges to Reno?

Mr. Bender—Probably on some few articles, yes. But on most articles we consume and use I think not. Should the Union Pacific Railway Company interpret Section 2 of this law as I have outlined, and demand and collect from the Southern Pacific the same rates as Ogden on shipments consigned to Sacramento, Reno, etc., as they demand and collect on like shipments consigned to Ogden, Salt Lake City, etc., you can readily see that an increase in through overland rates will be the result. In other words, the through overland rates will be the sum of the local rates of the respective roads participating in the haul. Should, however, the Commissioners place a different interpretation on this section, as they may do, the result would be much the opposite. Anyway, as the penalties provided for a violation of the Interstate Act are most summary and severe the public cannot censure the railroads for enforcing the law to the letter as they understand it.

Reporter—Well, if our people pay no higher rate than is charged on the same freight going to Sacramento—that is, are not charged the back rate from Sacramento in addition to the through rate—won't they be satisfied?

Mr. Bender—Hardly. If the rates after April 5th next are higher in the aggregate than at present, I am inclined to believe that our people will be able to purchase goods in San Francisco and Sacramento to better advantage than to buy in the East and pay overland rates, as those places have the advantage of low sailing and steamer rates from Atlantic points, as well as the Canadian Pacific, which is not subject to the Interstate law. However, the law so completely upsets the existing methods that we can only guess as to the effects which will come from such a radical change. We can only wait and determine its benefits after the law is in operation.

MISCELLANEOUS.

A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The very persons from whom she most desires to hide the want of her charms are the ones most likely to make the discovery. But there is no reason why she should not retain and retain all the beauty of hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and not only will her hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliancy of color. AYER'S HAIR VIGOR cures.

Hereditary Baldness.

GEORGE MAYER, Flatonia, Texas, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

Is not a dye, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is turning gray.

Mrs. CATHERINE DEAMER, Point of Rocks, Md., had her hair suddenly blanched by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. It cured HERBERT BOYD, Minneapolis, Minn., of intolerable itching of the scalp; J. N. CARTER, JR., Occoquan, Va., of Scald Head; Mrs. D. V. S. LOVELACE, Love Inceville, Ky., of Tetter Sores; Miss BESSIE H. BEDLOE, Burlington, Vt., of Scalp Disease and Dandruff. Topicality of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR.

A Toilet Luxury

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

Professional Etiquette

Prevents some doctors from advertising their skill, but we are bound by such conventional rules and think that if we make a discovery that is of benefit to our fellows, we ought to spread the fact to the whole land. Therefore, we came to be published throughout the land the fact that Dr. R. V. Pierce's "Golden Medical Discovery" is the best known remedy for consumption (scrofula of the lungs) and kindred diseases. Send 10 cents in stamps for Dr. Pierce's complete treatise on consumption, with unexpurgated means of self-treatment. Address World's Dispensary Medical Association, 603 Main street, Buffalo, N. Y.

Unlike other cathartics, Dr. Pierce's "Pelllets" do not render the bowels constive after operation, but, on the contrary, establish permanently healthy action. Being entirely vegetable, no particular care is required while using them. By druggists.

Woman and Her Diseases

Is the title of a large illustrated treatise, by Dr. R. V. Pierce, Buffalo, N. Y., sent to any add as for 10 cents in stamps. It teaches successful self-treatment.

Astonishing Success.

It is the duty of every person who has used Boscche's German Kyrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 8,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Kyrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

SOMETHING NEW.

More than two-thirds of the Expense of putting up and Feeding Hay Saved by CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by great odds. Each and all of these inventions are warranted to do all claimed for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the actual work of hundreds, and received the unqualified endorsement of all.

DAYTON, NEVADA, FEBRUARY 8, 1887.
This is to certify that last season we used the Climax Stacker in putting up 1500 tons of hay, mostly blue joint; that it did its work well, and in my estimation is not equalled by any stacker or hay-lifting appliance on this coast.
